Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 22 Feb 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy with some rain at first. Brighter later.

Today:
Cloudy with outbreaks of rain across the south of the region at first. Drier in the far north. The rain in the south will gradually ease during the afternoon, with most parts becoming largely dry with some brighter spells developing. Maximum temperature 10 deg C (50 deg F).

Tonight:
Dry with clear spells overnight, which will allow for a touch of frost and some fog patches to form in places. It will turn increasingly cloudy and windy towards dawn. Minimum temperature 2 deg C (36 deg F).

Tuesday:
Wet and windy weather will spread northeastwards across all parts during Tuesday, with gales possible, especially over higher ground. Despite the rain and wind it will be mild. Maximum temperature 12 deg C (54 deg F).

Outlook for Wednesday to Friday:
Rain and strong winds will gradually clear southeastwards on Wednesday. Becoming fine and dry, with some sunny spells on Thursday and Friday. Staying mild overall.
